Dear Ms. Noble:

As Agent for Sterilex Corporation ("Sterilex"), I am submitting an Amendment to update the label for **Ultra-Kleen CW502 (EPA Reg. No. 63761-2)**.

The label changes are as follows:

- 1) The First Aid language has been updated so it agrees verbatim with PR Notice 2001-1.
- 2) The "Pulp and Paper Mills" site and associated use directions have been restored per the May 27, 1999 and March 15, 2000 stamped-accepted labels. The use was subsequently deleted for no justifiable reason through a Notification dated September 6, 2007. However, Sterilex wishes to replace the use at this time.

Please note that the following changes have been previously made by Notification and are also included on the product label:

- 1) The uses and claims for mold, mildew, drains, chair side evacuator traps and pump filter traps were added in conjunction with the December 7, 2005 Notification.
- 2) The pre-cleaning of whirlpool bathtubs use and the statement "Penetrates and Removes Biofilm and Other Organic Contaminants - Use as a Bactericide, Slimicide, Mildewstat, and Algicide in." were added in conjunction with the December 13, 2007 Notification.
